

Attention!

ONLY 3 CHICKENS!

Ever want to look at the stars closer then you can see with the naked eye? Well now you can! I, Galileo Galilei have constructed a marvelous device that's called a telescope. Yes, in the year of 1609 I have perfected a device so complicated. You can own a telescope for a small fee of one horse or 3 chickens. Now that's what I call a deal!

Here is a picture of the marvelous device!

TELESCOPE
